

8.2 Building Mutation Testing Tools

8.2.i The Interpretation Approach

8.2.ii The Separate Compilation Approach

8.2.iii The Schema-Based Approach

8.2.iv Using Java Reflection

8.2.v Implementing a Modern Mutation System

8.3 Bibliographic Notes

9. **Challenges in Testing Software**

9.1 Testing for Emergent Properties: Safety and Security

9.1.i Classes of Test Cases for Emergent Properties

9.2 Software Testability

9.2.i Testability for Common Technologies

9.3 Test Criteria and the Future of Software Testing

9.3.i Going Forward with Testing Research

9.4 Bibliographic Notes
