

- 4.1.iii Identifying Characteristics
 - 4.1.iv Choosing Blocks and Values
 - 4.1.v Using More than One Input Domain Model
 - 4.1.vi Checking the Input Domain Model
 - 4.2 Combination Strategies Criteria
 - 4.3 Constraints Among Partitions
 - 4.4 Bibliographic Notes
 - 5. **Syntax Testing**
 - 5.1 Syntax-Based Coverage Criteria
 - 5.1.i BNF Coverage Criteria
 - 5.1.ii Mutation Testing
 - 5.2 Program-Based Grammars
 - 5.2.i BNF Grammars for Languages
 - 5.2.ii Program-Based Mutation
 - 5.3 Integration and Object-Oriented Testing
 - 5.3.i BNF Integration Testing
 - 5.3.ii Integration Mutation
 - 5.4 Specification-Based Grammars
 - 5.4.i BNF Grammars
 - 5.4.ii Specification-Based Mutation
 - 5.5 Input Space Grammars
 - 5.5.i BNF Grammars
 - 5.5.ii Mutation for Input Grammars
 - 5.6 Bibliographic Notes
-

Part III: Applying Criteria in Practice

- 6. **Practical Considerations**
 - 6.1 Regression Testing
 - 6.2 Integration and Testing
 - 6.2.i Stubs and Drivers
 - 6.2.ii Class Integration Test Order
 - 6.3 Test Process
